Yale University
Department of Economics
28 Hillhouse Avenue
New Haven CT 06511
USA

Dear Members of the Recruiting Committee,

I am writing to apply for the position of Assistant Professor. I believe that Yale University offers a stimulating environment to conduct high quality research. I will complete my Ph.D. in Economics at Yale University by June 2020.

My research interests are the intersection of International Trade and Labor Economics, particularly related to the effect of automation and globalization on employment. My doctoral dissertation explores the impact of industrial robots and multinational enterprises on labor market outcomes in the US and Japan. My findings highlight the quantitative importance of these automation and globalization on earnings inequality measured by wage inequality and factor shares. In my ongoing projects, I plan to extend my research agenda to obtain further evidence from various sources, including a uniquely designed plant-level survey.

Please do not hesitate to contact me with further questions. Thank you for your consideration.

Sincerely,

Daisuke Adachi
